## Section I

### INTRODUCTION

On June 20, 2000, the Board of County Commissioners (the Board) approved the establishment of the Eloise Community Redevelopment Agency (Agency) through the adoption of the Community Redevelopment Plan (Plan) with Ordinance No. 00-33 and the funding of the Plan through Ordinance No. 00-34, which created the Agency Trust Fund. On November 8, 2006, the Board adopted Resolution No. 06-176 appointing itself as the Board of Commissioners of the Agency, and on June 5, 2018, the Board approved an amendment to the Plan, providing for additional strategies to resolve blighting issues.

The Agency is located in the unincorporated area of Polk County and is generally bounded by the CSX Railroad to the West, Lake LuLu to the North, Wahneta Canal to the South, and Shell Road and S.R. 655 to the East. The Agency lies within District 3.

Chapter 163.387 (8), Florida Statutes, required that Polk County Board of County Commissioners file an annual report of its financial activities with the taxing authorities each year for the preceding fiscal year. This annual report has been prepared to meet that obligation and is filed for FY 20/21 ending September 30, 2021.

The Agency's base year is 1999 and the base year taxable value is (\$12,434,610). The current year taxable value in the tax increment area from the Polk County Property Appraiser is \$27,190,345. which represents a 6.48% increase from the 2020 final taxable value. Overall, the Agency's taxable value has increased approximately 118.67% (\$12.4 million to \$27.1 million), above the base year.

This report sets forth: (1) the Agency and its member commissioners, (2) the history of the Agency, (3) organization and membership of the administration, (4) public and private capital improvement and promotional projects accomplished, and (5) financial statements of investments, liabilities, income, and operating expenses.

### HISTORY:

The Agency was established on September 29, 1998 by the adoption of Resolution No. 1998-50. At the same time, Resolution No. 1998-08 found the Eloise Community to be an area of slum and blight. Ordinance No. 2000-33, adopted June 20, 2000, approved the Plan finding the “Plan” satisfied Florida Statutes 163.360.

By adopting Resolution No. 1998-08, the Board of County Commissioners determined that the rehabilitation, conservation, redevelopment, or combination thereof in the ECRA is necessary for the best interests of the public health, safety, or welfare of the residents and citizens of Polk County; and that the Plan is sufficiently complete to indicate the demolition and removal of structures, redevelopment, improvements, and rehabilitation as may be proposed to be carried out in the ECRA.

Further, the Board of County Commissioners determined that 1) A shortage of housing of sound standards and design which is decent, safe, sanitary, and affordable to residents of low or moderate income, including the elderly, exists in the County; 2) The need for housing accommodations has increased in the area; and 3) The conditions of blight in the area or the shortages of decent, safe, affordable, and sanitary housing cause or contribute to an increase and spread of disease and crime or constitute a menace to the public health, safety, and welfare.

The following conditions were also found in the Eloise area substantiating the statutory definition for blight which provided the basis for the CDBG (Community Development Block Grant) project completed in September 2012:

- All nine of the residential streets of Eloise dead-ended into the Wahneta Canal creating a defective and inadequate street layout
- Seven of the nine streets had no other access thereby creating difficult access for Fire and Emergency Medical Services vehicles
- All nine residential streets have inadequate pavement widths for two-way traffic with ditches running on both sides of the pavement
- Nine of the twenty streets in Eloise flooded frequently
- No sanitary sewer service was provided creating environmental issues due to small 5,000 square foot lots and high water tables
- Potable water lines were inadequate for fire protection
- As of 1997, there were no fire hydrants on any residential street in Eloise
- Severe public health and safety hazards existed based upon the high incidence of fires and the obstacles to effectively fight them due to accessibility and low water pressure

Additionally, to assist staff with implementing updated strategies to continue to resolve the blighting and slum that still exists, on April 5, 2018 the Eloise CRA Advisory Committee voted unanimously to approve an amendment to the Eloise CRA Plan. May 2, 2018 the plan was presented to the Polk County Planning Commission to review and determine consistency with the Polk County Comprehensive Plan. The amended Eloise CRA plan was found consistent with the Comprehensive Plan and was unanimously

approved. On June 5, 2018, the Agency Plan Amendment was presented to the CRA Board and was approved unanimously.

### **ELOISE CRA ADVISORY COMMITTEE AND BOARD:**

Meetings of the Eloise CRA Advisory Committee are determined by the committee and must be held at least once each quarter. Meetings are typically scheduled on the first Monday of the last month of each quarter, subject to Advisory Committee preference.

The County Commission appoints five members to the committee, each of whom either resides, or is engaged in business, within the boundaries of the community redevelopment area. Appointed members serve three-year terms. Members may be reappointed for up to, but no more than, two additional terms at the discretion of the County Commission. The Committee reports to the Polk County Board of County Commissioners on its activities. The appointing authority is found in Resolution No. 2006-176.
