Bid 26-219 – Lake Parker Dock Demolition

Addendum #1

Questions and Answers

Question 1: Are we able to add dirt to the end of the peninsula so we can stabilize our equipment by the dock?

Answer 1: Yes, dirt may be added to the end of the peninsula but there are limitations due to the permitting. Installation of dirt must be added after the turbidity barrier has been installed. Dirt must remain higher in elevation than the average high water line on the sides where rip rap is present.
