Inspections shall be based on requirements contained in law. The definitions of serious, willful and criminal/willful violations are as follows:

Serious Violation: A serious violation shall be deemed to exist in a place of employment if there is a substantial probability that death or serious physical harm could result from a condition which exists, or from one or more practices, means, methods, operations, or processes which have been adopted or are in use, in such place of employment unless the employer did not, and could not, with the exercise of reasonable diligence, know of the presence of the violation.

**Willful violation:** May exist where evidence shows that the employer committed an intentional and knowing violation of the Act.

**Criminal/Willful violation:** A repeat violation of a previously cited willful violation.

Violation of Serious, Willful or Criminal violation may have the following consequences:

**First violation:** correction may be a verbal warning, and the correction shall be done the same day. Written documentation may be maintained by the County. This violation may result in work stoppage until the violation is corrected. The work stoppage shall not entitle the Contractor to additional contract time or compensation.

**Second violation:** this may constitute a breach of contract for safety violations and may result in termination of the contract at the sole discretion of the County. This could also be grounds for suspension or termination.

**Note:** The County Safety and Regulatory Manager or their designee may stop any job to ensure the safety of all concerned.

Should the work site be a hazardous area, the Contractor must provide the County with a copy of the Contractor's Safety Plan to include information concerning hazards such as type or identification of known toxic material, machine hazards, Material Safety Data Sheets (MSDS) or any other information that would assist the Contractor in the planning of a safe work site.

The Contractor shall be aware that while working for the County, representatives from agencies such as the United States Department of Labor (DOL), Occupational Safety and Health Administration (OSHA) and the Division of Safety, State of Florida, DEP are invitees and need not have warrants or permission to enter the work site. These agencies, as well as the County Safety and Regulatory Manager or their designee, enter at the pleasure of the County.

The Contractor shall designate a competent person of its organization whose duty shall be the prevention of accidents at the site. This person shall be the Contractor's Superintendent unless otherwise designated, in writing, by the Contractor to the User Division. All communications to the Superintendent shall be as binding as if given to the Contractor.

20. Quotes should include pricing for the removal of all structures, footers, plumbing below grade, and debris, as well as any shrubs, trees, or vegetation in which removal is necessary for the safe demolition of the structure, and any other obstructions associated with the property that fall within the lot dimensions given. Lot should be cleared and raked, and any man-made items removed, unless otherwise specified in the quote package.
21. **PERFORMANCE OF WORK:** All or portions of the work required under this quote may be performed by Subcontractors, exclusive of removal of asbestos containing material, regulated or unregulated. If the successful Contractor plans to use Subcontractor(s) the Contractor must provide a list of **ALL** Subcontractor(s) and the division of work to be performed by each Subcontractor to the Procurement Division for approval **prior to award of the quote**. Proof of insurance and all applicable licensing required to safely perform the scope of work will be required from the

Subcontractor(s) prior to the issuance of the Notice to Commence Services. It will be the responsibility of the Prime Contractor to submit this documentation to the Procurement Division after the recap has been issued and prior to award. It is the Prime Contractor's responsibility to inform and provide job specifications to any/all Subcontractor(s) of the job. Any rework required due to negligence or inability of any Subcontractor(s) shall be the responsibility of the Prime Contractor.

The Contractor or their designee must be on site during the performance of this quote and will be fully responsible for all acts and omissions of their Subcontractor(s) and of any persons directly or indirectly employed by them. No changes to Subcontractor(s) used will be allowed after submittal of quote unless otherwise approved by the Procurement Director in advance of any work to be performed. Any Prime Contractor that defaults on this requirement may be suspended as allowed within the Procurement Procedures.

Only duly authorized employees of the Prime Contractor or Subcontractor are allowed to be present on the demolition site. Violations of this requirement will result in a stop work order being issued by the User Division.

Any work performed by the successful Contractor or their Subcontractor(s) must meet all environmental regulations and deadlines stated in the Notice to Commence Services.

Delays as a result of weather events may be cause for an extension of time to the Completion Date established within the Notice to Commence Services. The length of delay and comparable number of days shall be determined by the County. Extension(s) of time shall be on a one-to-one basis.

A delay due to a weather event is defined as an inability to complete any portion of the scope of work due to inclement weather. If the weather prevents outside activity from occurring but the Contractor is able to perform another portion of the scope, a delay is not justified. The Contractor must request an extension of time to the Completion Date immediately upon the conclusion of the weather event causing the delay. This request may be sent electronically via email.

The weather event shall be of a duration that prevents the Contractor from performing work for a significant portion of the day or that leaves the job site in such a state that the Contractor is unable to continue to work. The County shall be the sole determination of whether the weather event meets the stated criteria contained within this document.

Nothing in the quote document shall create any contractual relationship between any subcontractor and the County or any obligation to pay or facilitate the payment of any monies due any subcontractor, except as may otherwise be required by law.

The Closure Package, which shall include all necessary documentation to complete the demolition project must be submitted to the User Division within five (5) business days of the Completion Date stated within the Notice to Commence Services. 22. **LOCAL PREFERENCE:** It is the policy of the Board of County Commissioners to afford local preference to Polk County entities in the award of bids. Preference shall be administered in accordance with the following:

When written quotations are received, and the lowest price is offered by an entity located outside of Polk County, and the next lowest price is offered by an entity located in Polk County, and is within 5% of the lowest price offered, then the Polk County entity shall be given the opportunity to match the lowest price offered, and if agreement to match the lowest price is reached, the Polk County entity will be awarded the quote if the Polk County entity is otherwise fully qualified and meets all County requirements.

For purposes of this provision the term "Polk County entity" means any business having a physical location within the boundaries of Polk County, Florida, at which employees are located and business activity is managed and controlled on a day-to-day basis. Additionally, the business must have been located within the boundaries of Polk County for a minimum of 12 months prior to the date the applicable solicitation is issued. This requirement may be evidenced through a recorded deed, an executed lease agreement, or other form of written documentation acceptable to the County. The County shall have the right, but not the obligation, to verify the foregoing requirements.

If a contract is being funded in whole or in part by assistance of any federal, state or local agency which disallows local preference, the County will adhere to those requirements by not applying this section.

23. **VENDOR PREFERENCE:** It is the policy of the Board of County Commissioners to afford vendor preference to women and minority owned entities in the award of quotes. Preference shall be administered in accordance with the following:

When written quotations (less than \$50,000.00) are received, and the lowest price is offered by a non-women or minority owned entity located outside of Polk County, and a price is offered by a women or minority owned entity that is within 5% of the lowest

DQ 26-260 - 2330 Rifle Range Road, Winter Haven (Residential)

price offered, then the women or minority owned entity shall be given the opportunity to match the lowest price offered, and if agreement to match the lowest price is reached, the women or minority owned entity will be awarded the quote if the women or minority owned entity is otherwise fully qualified and meets all county requirements.

The term "Women or Minority Owned Entity" means any business having at least 51% ownership by women or minority group members who independently control the management and day-to-day operations of the firm. Group members are Females, African Americans, Hispanic Americans, Asian-Pacific Americans, Native Americans, and Asian-Indian Americans.

If a contract is being funded in whole or in part by assistance of any federal, state or local agency which disallows this form of preference, the County will adhere to those requirements by not applying section.

This policy in no way supersedes the Local Preference Policy.

The contractor acknowledges and agrees that (i) the County and the contractor may not enter into this Agreement, and the contractor may not enter into any subcontracts hereunder, unless each party to this Agreement, and each party to any subcontracts hereunder, registers with and uses the E-Verify system; and (ii) use of the U.S. Department of Homeland Security's E-Verify System and compliance with all other terms of this Certification and Section 448.095, Fla. C. By entering into this Agreement, the contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The contractor shall maintain a copy of such affidavit for the duration of this Agreement. If this Agreement is terminated for a violation of Section 448.095, Fla. Stat., by the contractor, the contractor may not be awarded a public contract for a period of 1 year after the date of termination. The contractor shall be liable for any additional costs incurred by the County as a result of the termination of this Agreement. Nothing in this Section shall be construed to allow intentional discrimination of any class protected by law.

27. **CODE OF ETHICS:** If any vendor violates or is a party to a violation of the code of ethics of Polk County or the State of Florida, with respect to this quote, such vendor may be disqualified from performing the work described in this quote or from furnishing the goods or services for which the quote is submitted and shall be further disqualified from quoting on any future quotes for work, goods, or services for the County.

It includes, but is not limited to fire, flood, earthquakes, storms, lightning, epidemic, war, riot, civil disturbance, sabotage, and governmental actions.
