Bid # 26-305, Road Construction - Minor Addendum # 1

Q1: Is a bid bond required?

A1: No.

Q2: The Qualifications section of the bid package states, "Vendor must hold a State of Florida General Contractor's License under the vendor's name." Will the County consider permitting an Underground Utility Contractor license for this project? As the scope of work is more drainage related. An Underground Utility Contractor would possess more specialized expertise aligned with this type of work. An Underground Utility license encompasses all subsurface construction activities, including storm systems, water and sewer infrastructure, roadway work, excavation, and concrete. By limiting eligibility to only General Contractors, the County may be unintentionally excluding qualified Underground Utility Contractors who are well-suited to perform this work and who might otherwise submit competitive bids.

A2: Yes, we will accept Underground Utility Contractor License in the State of Florida as sufficient to meeting the minimum qualifications for this bid.

Q3: There were any plans for this project.

A3: No, this bid is not for a specific project. Work orders will be issued as projects are assigned.

Q4: If there was a mandatory pre-bid?

A4: No, there is no pre-bid meeting.

Q5: Can you provide a plan holders list for this project.

A5: There is no plan holders list.
