Other property at the site or adjacent to it, including trees, shrubs, lawns, walks, pavements, roadways, structures and utilities not designated for removal, relocation or replacement in the course of demolition shall be the responsibility of the Contractor. Any questions regarding compliance with the safety requirements/regulations provision shall be directed to the Polk County Safety and Regulatory Manager, Risk Management Division, (863) 534-5267.

The Contractor is responsible for observing all, DEP and OSHA regulations and shall self-inspect to ensure that this is accomplished. The Contractor shall ensure that all personnel are properly trained and shall be able to provide documentation for their personnel that have attended training courses. Examples of such training courses are: Hazard Communications; Traffic Work Zone Safety; Personal Protective Equipment; First Aid/CPR; Permit Required Confined Space; and Lock Out/Tag Out of Hazardous Energy. A County representative may periodically monitor work site safety. Should there be safety and/or health violations, classified as Serious, Willful or Criminal/Willful Violations, the County's representative may have the authority, but not the duty, to require the Contractor to correct the violation in an expeditious manner. Inspections shall be based on requirements contained in law. The definitions of serious, willful and criminal/willful violations are as follows:

Serious Violation: A serious violation shall be deemed to exist in a place of employment if there is a substantial probability that death or serious physical harm could result from a condition which exists, or from one or more practices, means, methods, operations, or processes which have been adopted or are in use, in such place of employment unless the employer did not, and could not, with the exercise of reasonable diligence, know of the presence of the violation.

Willful Violation: May exist where evidence shows that the employer committed an intentional and knowing violation of the Act.

Criminal/Willful Violation: A repeat violation of a previously-cited willful violation.

Violation of Serious, Willful or Criminal violation may have the following consequences:

First violation: correction may be a verbal warning, and the correction shall be done the same day. Written documentation may be maintained by the County. This violation may result in work stoppage until the violation is corrected. The work stoppage shall not entitle the Contractor to additional contract time or compensation.

Second violation: this may constitute a breach of contract for safety violations and may result in termination of the contract at the sole discretion of the County. This could also be grounds for suspension or termination.

Note: The County Safety and Regulatory Manager or their designee may stop any job to ensure the safety of all concerned.

Should the work site be a hazardous area, the Contractor must provide the County with a copy of the Contractor's Safety Plan to include information concerning hazards such as type or identification of known toxic material, machine hazards, Material Safety Data Sheets (MSDS) or any other information that would assist the Contractor in the planning of a safe work site.

The Contractor shall be aware that while working for the County, representatives from agencies such as the United States Department of Labor (DOL), Occupational Safety and Health Administration (OSHA) and the Division of Safety, State of Florida, DEP are invitees and need not have warrants or permission to enter the work site. These agencies, as well as the County Safety and Regulatory Manager or their designee, enter at the pleasure of the County.

The Contractor shall designate a competent person of its organization whose duty shall be the prevention of accidents at the site. This person shall be the Contractor's Superintendent unless otherwise designated, in writing, by the Contractor to the User Division. All communications to the Superintendent shall be as binding as if given to the Contractor.

17. Quotes should include pricing for the removal of all structures, slabs, footers, plumbing below grade, any and all septic tanks, and debris, as well as any shrubs, trees, or vegetation in which removal is necessary for the safe demolition of the structure, and any other obstructions associated with the property that fall within the lot dimensions given. Lot should be cleared from all signs of human habitation including any man-made items, unless otherwise specified in the quote package.
18. **PERFORMANCE OF WORK:** All or portions of the work required under this quote may be performed by Subcontractors, exclusive of removal of asbestos containing material, regulated or unregulated. If the successful Contractor plans to use Subcontractor(s) the Contractor must provide a list of **ALL** Subcontractor(s) and the division of work to be performed by each Subcontractor to the Procurement Division for approval **prior to award of the quote**. Proof of insurance and all applicable licensing required to safely perform the scope of work will be required from the Subcontractor(s) prior to the issuance of the Notice to Commence Services. It will be the responsibility of the Prime Contractor to submit this documentation to the Procurement Division after the recap has been issued and prior to award. It is the Prime Contractor's responsibility to inform and provide job specifications to any/all

Subcontractor(s) of the job. Any rework required due to negligence or inability of any Subcontractor(s) shall be the responsibility of the Prime Contractor.

The Contractor or their designee must be on site during the performance of this quote and will be fully responsible for all acts and omissions of their Subcontractor(s) and of any persons directly or indirectly employed by them. No changes to Subcontractor(s) used will be allowed after submittal of quote unless otherwise approved by the Procurement Director in advance of any work to be performed. Any Prime Contractor that defaults on this requirement may be suspended as allowed within the Procurement Procedures.

Only duly authorized employees of the Prime Contractor or Subcontractor are allowed to be present on the demolition site. Violations of this requirement will result in a stop work order being issued by the User Division.

Any work performed by the successful Contractor or their Subcontractor(s) must meet all environmental regulations and deadlines stated in the Notice to Commence Services.

Delays as a result of weather events may be cause for an extension of time to the Completion Date established within the Notice to Commence Services. The length of delay and comparable number of days shall be determined by the County. Extension(s) of time shall be on a one-to-one basis.

A delay due to a weather event is defined as an inability to complete any portion of the scope of work due to inclement weather. If the weather prevents outside activity from occurring but the Contractor is able to perform another portion of the scope, a delay is not justified. The Contractor must request an extension of time to the Completion Date immediately upon the conclusion of the weather event causing the delay. This request may be sent electronically via email.

The weather event shall be of a duration that prevents the Contractor from performing work for a significant portion of the day or that leaves the job site in such a state that the Contractor is unable to continue to work. The County shall be the sole determination of whether the weather event meets the stated criteria contained within this document.

Nothing in the quote document shall create any contractual relationship between any Subcontractor and the County or any obligation to pay or facilitate the payment of any monies due any Subcontractor, except as may otherwise be required by law.

The Closure Package, which shall include all necessary documentation to complete the demolition project must be submitted to the User Division within five (5) business days of the Completion Date stated within the Notice to Commence Services. Any Contractor that does not abide by this timeframe may be subject to suspension as noted within this document and the Procurement Procedures.

This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The contractor shall maintain a copy of such affidavit for the duration of this Agreement. Failure to comply will lead to termination of this Agreement, or if a subcontractor knowingly violates the statute or Section 448.09(1), Fla. Stat., the subcontract must be terminated immediately. If this Agreement is terminated pursuant to Section 448.095, Fla. Stat., such termination is not a breach of contract and may not be considered as such. Any challenge to termination under this provision must be filed in the Tenth Judicial Circuit Court of Florida no later than 20 calendar days after the date of termination. 24. **ATTORNEY'S FEES AND COSTS:** Each party shall be responsible for its own legal and attorney's fees, costs and expenses incurred in connection with any dispute or any litigation arising out of, or relating to this Agreement, including attorney's fees, costs and expenses incurred for any appellate or bankruptcy proceedings.

It includes, but is not limited to fire, flood, earthquakes, storms, lightning, epidemic, war, riots, civil disturbance, sabotage, and governmental actions. The Contractor shall ensure that all personnel are properly trained and shall be able to provide documentation for their personnel that have attended training courses. Examples of such training courses are: Hazard Communications, Traffic Work Zone Safety, Personal Protective Equipment, First Aid/CPR, Permit Required Confined Space, Lock out/Tag Out of Hazardous Energy. Should there be safety and/or health violations, classified as Serious, Willful or Criminal/Willful Violations, the County's representative may have the authority, but not the duty, to require the Contractor to correct the violation in an expeditious manner. Inspections shall be based on requirements contained in law. The definitions of serious, willful and criminal/willful violations are as follows:

Serious Violation: A serious violation shall be deemed to exist in a place of employment if there is a substantial probability that death or serious physical harm could result from a condition which exists, or from one or more practices, means, methods, operations, or processes which have been adopted or are in use, in such place of employment unless the employer did not, and could not, with the exercise of reasonable diligence, know of the presence of the violation.

Willful Violation: May exist where evidence shows that the employer committed an intentional and knowing violation of the Act.

Criminal/Willful Violation: A repeat violation of a previously cited willful violation.

Second violation: may result in work stoppage until the violation is corrected. The work stoppage shall not entitle the Contractor to additional contract time or compensation. Liquidated damages provision will remain in full force and effect.

Third violation: this may constitute a breach of contract for safety violations and may result in termination of the contract at the sole discretion of the County.

Note: The County Safety Officer may stop any job to ensure the safety of all concerned.

1.3 Should the work site be in a hazardous area, the County shall furnish the Contractor with information concerning hazards such as types or identification of known toxic material, machine hazards, Material Safety Data Sheets, or any other information that would assist the Contractor in the planning of a safe work site.

1.4 The Contractor shall be aware that while working for the County, representatives from agencies such as the United States Department of Labor, Occupational Safety and Health Administration (OSHA), and the Division of Safety, State of Florida, are invitees and need not have warrants or permission to enter the work site. These agencies, as well as the County Safety Officer, enter at the pleasure of the County.

1.5 The Contractor shall designate a competent person of its organization whose duty shall be the prevention of accidents at the site. This person shall be the Contractor's superintendent unless otherwise designated in writing by the Contractor to the County.
