Addendum # 1

Q1: Could you send the asbestos surveys and photos for both properties, or confirm they're posted on the FTP site?

A1: The information requested has been posted to our FTP site, please see instructions above on how to access the information.

Q2: Which demolition certifications are accepted besides a CGC or CBC license?

A2: See "Instructions," item 5, "licensed general contractor or a demolition contractor."

Q3: Should the W-9, the certificate of insurance, and the notarized forms be submitted with the quote, or only before award?

A3: The W-9 and certificate of insurance are only required from the successful bidder and must be provided prior to award.

Q4: Is pollution liability required?

A4: Yes, see Insurance requirements on page 25 & 26 of the quote package.

Q5: Is there a preferred email subject line, or a size limit on email submissions?

A5: Demolition quote number and address. No

Q6: Is there a target date for the Notice to Commence?

A6: No, however, projects generally begin within 4 weeks after the opening date.

Q7: How many septic tanks and drain fields are at each site, and are any of the drain fields raised?

A7: Septic tanks, lift stations, and raised drain fields shall be removed: If there is a septic tank on premises, the Contractor shall submit a copy of their Septic System Abandonment Permit and the Completion Form that is signed by a Health Department official as instructed on the Checklist with their Closure Package. Chapter 64E-6.011 and 64E-6.019 of the Florida Administrative Code sets the rules for the proper procedure of abandonment of septic tanks.

Q8: Has Tampa Electric already pulled the meters? Is there water or gas service at either site?

A8: The County has requested that Tampa Electric remove the meters and disconnect service to the property. However, it is still the Contractor's responsibility to verify the disconnect. Demo Contractor is responsible for all disconnects and permits with any and all utilities, municipalities, etc. Electricity must be disconnected from the structure prior to start. Must have required permit(s) prior to start. There is water at site. Unaware of gas services.
